RECOMMENDATION

Dear Sir/Madam,

We have pleasure in recommending to you and encourage you to take up a cooperation with Engineering Services Company RIALEX Ltd.

In the year 2007 Rialex delivered to Cantoni Group and assembled 11 cranes and power supply systems of seven –digit value.

The ordered cranes are of high quality and non-failure. All the necessary works were completed in the due time.

The flexibility of Rialex and high qualifications of its employees made it possible to carry out assembly works for cranes without any stoppage or delays in our production, which was very essential for us.

Taking into consideration the facts mentioned above, in the current year Rialex will be a supplier of cranes for our company and again it will be a seven-digit value contract.

We strongly recommend Rialex to you.
